JOURNAL OF THE FRANKLIN INSTITUTE

Vol. CLXII.—July-December, 1906.

INDEX.

Abrasive materials....240
Acoma: the Cliff City of New Mexico. (Carter.)....449
Aluminum, depositing copper on....156
Amethysts, American....239
Analyses and assays free, by Government....370
Analytical notes—Some recently devised tests. (Leffmann)....371
(Sadtler, S. S.)....213
Arsenic, the recovery of....466
Artesian well, measuring the flow of....159

Balch, Edwin Swift. The survival of the shortest and easiest in language....421
Bartlett, John. On the application of Farmer's method of reduction by which the shadows are preserved and only the high-lights reduced....73
Supplementary illumination in photographic development....473
Baldwin, Mathias W. Presentation of portrait of....80
Bates, Lindon W. The terminal lake canal....1
Book Notices....476

Calcium, use of in metal refining....424
Carbonic acid as a cause of rust....157
Carter, Oscar C. S. Acoma: the Cliff City of New Mexico....449
Combustion, regulation of the duration of. (Eldred)....201
Chesapeake and Delaware canal, resolution of Institute, for enlargement of. (Haupt)....326
Chilean nitrate deposits....159
Chimneys. (See high chimneys)
Civil service reform. (See Massachusetts)....72
Claude, Georges—Low pressure: the death of matter. (Translated by Chief Eng. B. F. Isherwood, U. S. N.)....375
Cold-worked iron, effects of strain in....396
Comparative strength of green Tamarack and green Norway pine....472
Corundum, the need of....448
Cotton, the scouring of. (Matthews)....25
Cryalite, importation of....296

Darrach, Chas, Gobrecht. The design, installation and maintenance of the modern office building....37, 129
Diamonds, the search for....212
world's famous....217

Easter Island, a trip to. (Frank)....179
Earthquake records....335
(San Francisco), one lesson of....158

Effect of moisture on the strength and stiffness of wood....465
Eldred, Byron. Regulation of the duration of combustion....201
Electric fountains....344
Electricity, smelting iron ores by....200
Enlightened methods of treating the employed. (Porter)....161

FRANKLIN INSTITUTE:
BALDWIN MATHIAS W. Presentation of portrait of, by Mrs. F. T. S. Sully Darley and Messrs. Burnham, Williams & Co....80
BROCK, ROBERT C. H. Memorial of....425
Committee on Science and the Arts:
REPORTS:
Meeker's improvements in analytical methods and apparatus, 404; Levy's etch-powdering machine, 404; Walter & Ewing's method and apparatus for detecting electrical oscillations, 405; The "Monarch" Engine Shop....479
Institute—Proceedings of Stated Meetings:
June 20th, 80; September 19th, 325; October 17th, 406; November 21st, 480
Resolution urging the improvement of national waterways, particularly, the Chesapeake and Delaware Canal....326
Sections—Proceedings of Stated Meetings....478
Schools:
Schools of Drawing, Machine Design and Naval architecture....76
Farmer's method of reduction in photography. (Bartlett)....73
Ferrocyanide titration....396
Fluorescence and phosphorescence. (Nichols)....219
Fluorspar, production of, in 1905....239
the uses of....336
Frank, Victor Strauss. A trip to Easter Island....179

Ganz, Albert F. The physical meaning of power factor, and the significance of a power factor less than unity without phase difference....429
Gem mine, the greatest in the world....240

Hammer's historic collection of incandescent electric lamps. (Report on)....329
Hart, Jas. H. Application of mechanical refrigeration to ice cream manufacture....397
Haupt, Lewis M., Relations of the Government to our waterways....320
Heating value of coal and crude oil....157
Henry, Alfred J. Weather forecasting from synoptic charts....297
High chimneys, danger of, in earthquake countries....370

Ice cream manufacture, application of mechanical refrigeration to. (Hart.)....397
Incandescent gas mantles, behavior of....159
lamps, Hammer's historic collection of. Report on....327
International Association for Testing Materials....396
Injector, high-pressure, steam tests of. (Kneass)....279
Iron ores, smelting by electricity....200

Isherwood, B. F. (See Claude.)

Job, Robert. Testing and inspection of railroad supplies....31

Kinetic energy of gases, development of the theory for.(Westman)..317, 383
Kneass, Strickland L. High-pressure steam tests of an injector....279

Lapidary work: A growing industry in the United States....296
Lead peroxide manufacture....428
Leakage, direct, of steam through slide valves. (Stanford.)....467
Leffmann, Henry. Notes on some recently devised tests....371
Legislative Engineering. (Trautwine.)....407
Locomotive, the most powerful....128
Low pressures: the death of matter. (Claude-Isherwood)....375

Mann, Arthur S. Superheated steam in the power station....291
Manufacture of lead peroxide....428
Maple product, a note on the examination of. The lead value. (Sy)....71
Massachusetts Civil Service Reform Bureau....72
Matthews, J. Merritt. The scouring of cotton....25
Mercury arc, the: its properties and technical applications. (Weintraub)..241
Metallurgy, recent progress in. (Outerbridge)....345
Metallics....471
Mica, the production of in 1905....419
Moisture, effect of on the strength and stiffness of wood....465

Nichols, Edward L. Fluorescence and Phosphorescence....219
Nitrate deposits, Chilean....159

Obituary Notice. Robert C. H. Brock....425
Office buildings, modern, the design, installation and maintenance of. (Darrach)....37, 129
Open-hearth bath, premelting addition to....369
Outerbridge, A. E. Recent progress in metallurgy....345

Panama interoceanic canal. (See Bates)
Paper-making machine, the largest....158
Perrine, Frederick A. C. The value and design of water-power plants as influenced by load factor....269
Petroleums of North America, &c. (Richardson.)....57, 81
Phosphorescence. (See Nichols.)....219
Porter, H. F. J. The democrazation of industry; or enlightened methods of treating the employed....161
Power factor, the physical meaning of, etc. (Ganz.)....429
Practical hints to quarrymen....420
Precious stones, production of, in 1905....239
Premelting addition to the open-hearth bath....369
Production of mica in 1905....419

Quarrymen, practical hints to....420

Railroad supplies, testing and inspection of. (Job)....31
Reclamation service, annual report of....75

Recovery of Arsenic....466
Richardson, Clifford. The petroleums of North America: a comparison of those of the older and newer fields....57, 81
Rust, carbonic acid as a cause of....157

Sadtler, Samuel S. Analytical notes....213
Salton Sink, the....23
Scandinavian water power....316
Scouring of cotton. (Matthews.)....25
Smelting zinc ore in the blast furnace....428
Soda spring, a remarkable....24
Soft graphite made electrically....448
Stanford, J. V. Direct leakage of steam through slide valves....467
Steel, vanadium....218
Subway, proposed for Pittsburgh....374
Superheated steam in the power station. (Mann)....291
Supplementary illumination in photographic development. (Bartlett.)....473
Survival of the shortest and easiest in language. (Balch.)....421
Sy, Albert P. A note on the examination of maple product. The load value....71

Tamarack and green Norway pine, comparative strength of....472
Technical notes....218
Terminal lake canal at Panama. (Bates.)....1
The need of Corundum....448
Tin in Southern Nigeria....278
Topaz. (See tourmaline.)
Tourmaline and topaz, in Southern California....212
Trautwine, J. C., Jr. Legislative engineering....407
Transformers and transformer iron, standard test for....316
Turbine engine, variable speed....428
Turquoise, California, in favor....200

Use of calcium in metal refining....424

Vanadium steel....218
Variable speed turbine engine....428

Water-power plants, the value and design of, as influenced by load factor. (Perrine)....269
Scandinavian....316
Weather forecasting from synoptic charts. (Henry.)....297
Weintraub, E. The mercury arc: its properties and technical applications....241
Westman, Gustaf M. Development of the theory for the kinetic energy of gases....317, 353

Zinc industry in Utah....395
ore, smelting in the blast furnace....428
